

SnowEx Mini Pro 575 Salt Spreader

THE IDEAL SPREADER WHEN MORE CONTROL IS NEEDED IN CONFINED, NARROW DRIVEWAYS THAT LEAD TO PARKING LOTS.

- 12-volt Electric Drive/Transmission Sealed Unit - Assures low maintenance; no pulleys, no sprockets, no chains or belts!
- Variable Speed Dial Controller - Controls the spread width from inside the vehicle!
- 5.75 Cubic Foot Hopper - Offers 56% more capacity than the SP-375.
- Fits on any vehicle with a 2" receiver hitch.
- **QUALITY CONSTRUCTION** - The environment in which a spreader works is corrosive and harsh. SnowEx products are made to reduce the number of parts exposed to the weather. That's why, on SnowEx Spreaders, you'll never find pulleys, sprockets, belts or chains! Hoppers are made of high-density polyethelene so they can't rust or corrode. Also, polyethelene is lighter in weight than steel.
